# UK University Preparation Courses 2014 - 2015

Prices, dates and  
key information

## Course summary

### Pre-sessional courses

#### IELTS Preparation Course

This course is for students who need an intensive course of 28 lessons per week to develop general language skills while also gaining specialist preparation for the IELTS exam.

#### Super Intensive IELTS

This course is for students who need a full-time, very intensive course which concentrates 100% on skills for IELTS and offers thorough preparation for the exam in as short a time as possible.

#### English for Academic Study

This course is for students who do not yet have the English language level needed to start a Kings pre-university course, and who need careful and thorough preparation for the intellectual and linguistic demands of GCSE, A-level or Kings Foundation courses.

### Academic courses

#### GCSE

This course is for students aged 14 or 15 wanting a pathway to a British university who have not yet finished High School education in their home country. We will determine the right path for every student – from a three term accelerated course to a two year programme.

#### A-level

This course is for the most able students who are seeking places on competitive degree courses at the most elite universities in the UK or internationally.

#### Extended A-level

The Extended A-level is designed for students with lower language levels who intend to follow a main A-level course. It develops language proficiency to the level required for the demands of A-level, while also developing academic study skills and providing academic subject enrichment in preparation for the main A-level syllabus.

#### Advanced Level Foundation

This intensive one year foundation course is for students who are seeking places at leading UK universities. It is based on the A-level syllabus and recognised by a wide variety of UK Higher Education institutions.

#### Extended Foundation

The Extended Foundation includes an academic year which introduces academic subjects and language development prior to studying the Advanced Level Foundation syllabus. It offers an alternative to a two-year A-level for students with a lower language entry point who require a more incremental approach to learning.

### Applied courses

#### Art Foundation

This course is for students wanting the fastest, most direct path to an Art and Design-related degree course at a UK university.

#### International Business Foundation

This course is for students who want either a recognised, stand-alone business qualification, or are intending to use it to progress to a university degree course related to business or management.

#### Tourism and Hospitality Management Foundation

This course is for students who want to progress to a university degree course related to tourism and hospitality management, or to a career in this sector.

#### Level 4 Diploma in Tourism and Hospitality

This course is for students who want fast-track entry to Year 2 of a degree course in Tourism and Hospitality Management, or to begin a career at junior management level.
